1912.

REPORT OF TOWN CLERK.

Town Records, 1911.

WARRANT FOR THE ANNUAL TOWN MEETING, MARCH 6, 1911.

Worcester ss.

To the constable of the town of Upton, in the county of
Worcester, Greeting:

In the name of the Commonwealth of Massachusetts, you
are directed to notify the inhabitants of the town of Upton,
qualified to vote in elections and in town affairs, to meet at
the Town Hall, in said Upton, on Monday, the sixth day of
March, punctually at 6 o'clock, forenoon, then and there to
act on the following articles, to wit:

Article 1. To choose a moderator to preside at said meeting.

Article 2. To choose all necessary town officers for the
year ensuing: Three selectmen, three overseers of the poor,
town treasurer, collector of taxes, auditor, five constables,
three fence viewers and tree warden, all for one year; town
clerk, one assessor of taxes, one school committee, one cemetery
commissioner, and three trustees for the public library,
all for three years; also for said voters to give in their votes,
Yes or No, in answer to the question, "Shall license be granted
to sell intoxicating liquors in this town the ensuing year?"
All on one ballot.

In accordance with a vote passed at the annual meeting
of the town, held March 7, 1910, the remaining articles of this
warrant will be acted upon at an adjourned meeting of the
town, held on some evening within ten days of the above date.

Article 3. To hear the reports of all town officers and
committees, and act thereon.

Article 4. To raise such sums of money as may be
necessary to defray town charges for the ensuing year, make

appropriations of the same, and determine the time the same shall be paid, or act in any manner pertaining thereto.

Article 5. To determine the manner of repairing the highways and bridges the ensuing year, and act thereon.

Article 6. To see if the town will vote to authorize the town treasurer, with the approval of the selectmen, to borrow money in anticipation of the taxes of the present municipal year.

Article 7. To see if the town will vote to raise and appropriate the sum of five hundred dollars (\$500) to gravel the road in East Upton, from Carroll's corner, by William B. Fiske's house to Milford line, and act thereon.

Article 8. To see if the town will vote to raise and appropriate the sum of three hundred dollars (\$300), to purchase a pair of horses for use at the town farm, as recommended by the overseers of poor, or act in any manner pertaining thereto.

Article 9. To see if the town will vote to raise and appropriate the sum of two hundred and fifty dollars (\$250), to wire the main hall in town building, and act thereon.

Article 10. To see what action the town will take in regard to the drinking fountain on the common.

And you are directed to serve this warrant by posting up attested copies thereof at each of the following places in said town, seven days at least before the time of holding said meeting: At each of the post-offices and on the Town House in said town.

Hereof fail not and make due return of this warrant with your doings thereon, to the town clerk, before the time and place of meeting aforesaid.

Given under our hands at Upton, this twentieth day of February, in the year of our Lord, one thousand nine hundred and eleven.

WILLIAM H. MISKELL,
GEORGE E. CHILDS,
ALVARADO HENRY,

Selectmen of Upton.

Upton, February 25, 1911.

By virtue of the within warrant, I have this day notified the inhabitants of the town of Upton herein described, to assemble in their Town Hall on Monday, March 6, for the purposes within mentioned, by posting up attested copies of the within warrant in each of the post-offices and on the Town House, seven days before the meeting aforesaid.

WILLIAM F. PARSHLEY,
Constable.

A true copy of the warrant and the officer's return thereon.

Attest:

FRANCIS T. NELSON,
Town Clerk.

PROCEEDINGS OF THE ANNUAL TOWN MEETING,
MARCH 6, 1911.

COMMONWEALTH OF MASSACHUSETTS.

Worcester ss.

Pursuant to the foregoing warrant, the legal voters of the town of Upton met in their Town Hall in said Upton, on Monday, the sixth day of March, A. D. 1911.

The meeting was called to order at six o'clock a. m. by the town clerk, who then read the warrant and the officer's return thereon.

MODERATOR.

Article 1. The meeting made choice of David J. Moroney for moderator by ballot, the check list being used; he was sworn to faithfully perform the duties of his office by the town clerk.

TOWN OFFICERS.

Article 2. The selectmen having appointed Frank E. Lyford, Frank A. Brown, Alfred G. Bradish and Owen Donnelly inspectors and ballot clerks, they were sworn to faithfully perform the duties of the offices by the town clerk.

The cards of instruction and specimen ballots having

been posted as the law directs, the ballot-box to be used at this election was shown to the voters present to be empty, the register being set on 000, said box was locked and the keys thereof were given to William F. Parshley, constable in attendance at said meeting.

A package said to contain four hundred and fifty official ballots, to be used at this election, were delivered to the proper officers, and their receipt thereof given to the town clerk.

No person was allowed to deposit his ballot until his name was found on the check list and checked.

The polls were declared open for the reception of ballots at 6.10 A. M.

Voted: That when we adjourn today, we stand adjourned until Monday, March 13, at 7.45 P. M.

George E. Ambler, George F. Prentiss, Leo F. Murphy, and Whitman H. Holbrook, having been appointed to canvass the vote, they were duly sworn by the town clerk.

During the voting the ballot-box was opened by the unanimous consent of the election officers, and ballots taken therefrom for the purpose of counting; at 9.25 A. M., when the index stood on 203, two hundred ballots were taken out; again at 1.45 P. M., when the index stood on 302, one hundred ballots were taken out.

Voted: To close the polls at four o'clock P. M.

Due notice having been given the polls were at 4 o'clock P. M. declared closed.

At the close of polls the register stood on three hundred and forty-nine (349), the names on the check list which had been checked were audibly counted and found to be three hundred and forty-nine (349), the remaining ballots were then taken from the ballot-box and audibly counted, making in all taken therefrom three hundred and forty-nine (349).

The ballots having been sorted and counted, public declaration thereof was made in open meeting and recorded as follows:

FRANCIS T. NELSON,

Town Clerk.

PROCEEDINGS OF AN ADJOURNED TOWN MEETING, MARCH 13, 1911.

The meeting was called to order by David J. Moroney, moderator, at 7.45 p. m.

REPORTS OF TOWN OFFICERS AND COMMITTEES.

Article 3. Voted: To accept the reports of town officers as published.

The moderator read the following report of the committee chosen at the meeting of the inhabitants of the town held November 8, 1910, to investigate the matter of adding electric street lights to the present system.

January 19, 1911.

In accordance with a vote of the town taken at the fall meeting of last year, the moderator appointed six citizens to constitute a committee to investigate and report at this March meeting, 1911, their recommendation as to the proposition of extending the street lighting service about town.

The committee as appointed and organized was as follows: William H. Miskell, chairman; Fred W. Wood, secretary; George E. Childs, Alvarado Henry, David J. Moroney, Whitman H. Holbrook, Leander A. Snow, Edwin A. Chamberlain, and Eben T. Hall.

This committee held two meetings, one December 2, 1910, and January 19, 1911, in the selectmen's room, and went over the matter to the best of their ability, with an idea of distances on different streets, together with information from T. Russell Robinson, superintendent of the Electric Light company, we arranged this report to submit to this meeting.

First:—Your committee recommend that the town install

and maintain twenty-five additional lights to our present system.

Second :—That these lamps be sixty watt lamps, the same as on our main street.

Third :—That the twenty-five lights which we recommend be distributed to the best possible advantage on the following streets, in continuation from the last light on the street :

Three lights to be placed on Mechanic street.

Four lights to be placed on Elm street.

Six lights to be placed on Grove street.

Three lights to be placed on Pearl street.

Three lights to be placed on Hopkinton street.

Three lights to be placed on Milford street.

One light at Patrick Dwyer's corner, below Baldwin estate.

One light near West Upton depot.

One light near Upton Centre depot.

This making an addition of twenty-five lights at a cost of \$412.50.

Your committee recommend an appropriation of \$2000 for lighting the streets for the coming year.

FRED W. WOOD,
Secretary of Committee.

Voted: To accept and adopt the above report.

Voted: On a motion by Fred W. Wood, that the selectmen be authorized to act as a legal representative party to make a contract for the installing and maintaining of the twenty-five additional lights as recommended by the committee, and that the contract for the additional lights be made so that the same shall terminate on the same date as the present contract for street lighting.

APPROPRIATIONS.

Article 4. Voted: To make the following appropriations; each item was acted upon separately :

Notes and interest, \$1797.79 left over and	\$1,500 00
Support of schools	6,800 00
Roads and bridges	2,000 00
Support of poor	1,400 00
Removing snow	300 00
Fire department	750 00
Forest wardens	250 00
Town library	400 00
Carpenter fund	00 00
Care of cemeteries	300 00
Suppression of gypsy and brown tail moth	400 00
Suppression of elm tree beetle	200 00
Town officers	1,250 09
Incidentals	1,200 00
Military aid	250 00
State aid	200 00
Soldiers' relief	600 00
Street lighting	2,000 00
Memorial day	125 00
Suppression of the illegal sale of liquor	100 00
Sidewalks	100 00
Board of health	400 00
School physician	25 00
Road repairs in East Upton	500 00
Horses for Town Farm	300 00
Wiring main hall Town Building for electricity .	250 00
Voted at meeting November 8, 1910	200 00

	\$21,860 00

REPAIRING OF HIGHWAYS.

Article 5. Voted: That the repairs of the highways and bridges be left in the hands of the incoming board of selectmen.

BORROWING MONEY.

Article 6. Voted: That the town treasurer, with the approval of the selectmen, be and hereby is authorized to borrow money from time to time in anticipation of taxes of the

present municipal year to an amount not exceeding in the aggregate ten thousand dollars, and to issue a note or notes therefor payable within one year, any debt or debts incurred under this vote to be paid from the taxes of the present municipal year.

ROAD REPAIR IN EAST UPTON.

Article 7. Voted: To gravel the road in East Upton, from Carroll's corner, by William B. Fiske's, to Milford line, and voted to raise and appropriate five hundred (\$500) dollars to pay for the same.

HORSES FOR THE TOWN FARM.

Article 8. Voted: To raise and appropriate three hundred (\$300) dollars to purchase a pair of horses to be used at the Town Farm.

WIRING MAIN HALL FOR ELECTRICITY.

Article 9. Voted: To raise and appropriate two hundred and fifty (\$250) dollars to wire for electric lighting the main part of the Town Building.

DRINKING FOUNTAIN.

Article 10. Voted: To instruct the selectmen not to renew the lease for the water supply to the fountain on the common.

Voted: To raise \$21,860 by taxation.

Voted: That all taxes be paid on or before November 15, 1911; that on all taxes unpaid after that date, interest be added at the rate of six per cent per annum.

Voted: To dissolve the warrant.

WARRANT FOR SPECIAL TOWN MEETING,
MARCH 30, 1911.

Worcester, ss.

To the constable of the town of Upton, in the county of Worcester, Greeting:

In the name of the Commonwealth of Massachusetts, you are directed to notify the inhabitants of the town of Upton, qualified to vote in elections and in town affairs, to meet at the Town Hall in said Upton, on Thursday, the thirtieth day of March, punctually at 7.45 o'clock, afternoon, then and there to act on the following articles, to wit:

Article 1. To choose a moderator to preside at said meeting.

Article 2. To see if the town will vote to install five (5) sixty candle-power electric lights on Hartford avenue and High street, raise and appropriate money for the same, or act in any manner pertaining thereto.

Article 3. To see if the town will vote to rescind the whole or any part of the vote, whereby they voted at the adjourned meeting of the town held on March 13, to extend our street lighting system, or act in any manner pertaining thereto.

Article 4. To see if the town will vote to appropriate the

sum of \$800 for the purpose of making necessary alterations and doing general construction work on the stage in Town Hall which will include equipment of stage with wires and fixtures for electricity, also an asbestos curtain, thereby making all the changes necessary to conform with the rules and regulations of the state inspector of public buildings.

And you are directed to serve this warrant, by posting up attested copies thereof at each of the following places in said town, seven days at least before the time of holding said meeting:—At each of the postoffices and on the Town House in said town.

Hereof fail not, and make due return of this warrant, with your doings thereon, to the town clerk, before the time and place of meeting aforesaid.

Given under our hands at Upton, this twenty-first day of March in the year of our Lord, one thousand nine hundred and eleven.

WILLIAM H. MISKELL,
ALFRED YOUNG,
ARTHUR LAMSON,
Selectmen of Upton.

Upton, March 22, 1911.

By virtue of the within warrant I have this day notified the inhabitants of the town of Upton herein described, to assemble in their Town Hall on Thursday, the thirtieth day of March, for the purposes within mentioned, by posting up attested copies of the within warrant in each of the post-offices and on the Town House, seven days before the meeting aforesaid.

WARRANT FOR SPECIAL TOWN MEETING,
APRIL 17, 1911.

Worcester ss.

To the constable of the town of Upton, in the County of Worcester,

Greeting:

In the name of the Commonwealth of Massachusetts you are directed to notify the inhabitants of the town of Upton, qualified to vote in elections and in town affairs, to meet at the Town Hall in said Upton, on Monday, the seventeenth day of April, punctually at 7.45 o'clock, afternoon, then and there to act on the following articles, to wit:

Article 1. To choose a moderator to preside at said meeting.

Article 2. To see what action the town will take in regard to extending our present street lighting system, or act in any manner pertaining thereto.

Article 3. To see if the town will vote to appropriate the sum of eight hundred (\$800) dollars for the purpose of making necessary repairs in Town Hall, to comply with the rules and regulations of state building inspection.

Article 4. To see if the town will vote to rescind the vote, whereby they voted at the meeting held on March 13 to appropriate five hundred (\$500) dollars to gravel the road in the east part of the town leading from the Carroll corner, or act in any manner pertaining thereto.

Article 5. To see if the town will vote to raise and appropriate the sum of three hundred (\$300) dollars, to pay the tuition of students attending the industrial schools, and act thereon.

Article 7. To see if the town will take any action in regard to repairing a reservoir situated near the corner of River and Elm streets.

And you are directed to serve this warrant by posting up attested copies thereof at each of the following places in said town seven days at least before the time of holding said meet-

ing: At each of the postoffices and on the Town House in said town.

Hereof fail not, and make due return of this warrant, with your doings thereon, to the town clerk, before the time and place of meeting aforesaid.

Given under our hands at Upton this seventh day of April, in the year of our Lord one thousand nine hundred and eleven.

WILLIAM H. MISKELL,
ALFRED YOUNG,
ARTHUR LAMSON,

Selectmen of Upton.

Upton, April 10, 1911.

By virtue of the within warrant, I have this day notified the inhabitants of the town of Upton herein described, to assemble in their Town Hall on Monday, the 17th of April, for the purposes within mentioned, by posting up attested copies of the within warrant in each of the postoffices and on the Town House, seven days before the meeting aforesaid.

TUITION OF STUDENTS ATTENDING INDUSTRIAL SCHOOLS.

Article 5. Voted: To pass over this article.

RESERVOIR AT ELM AND RIVER STREETS.

Article 6. Z. B. Grandy said in part, that after June 1 there was but little water available for fire purposes, that to deepen this well ten feet there would be a good supply of water during the whole year, that the well was on private land, that if the town would put it in good condition and keep it so he would deed the town what land was necessary, that the town might own the reservoir.

Voted: That the selectmen be instructed to expend one hundred dollars in repairing the reservoir, and take said sum from the appropriation for incidentals.

Voted: To dissolve the warrant.

A true record. Attest:

FRANCIS T. NELSON,

Town Clerk.

WARRANT FOR SPECIAL TOWN MEETING,
OCTOBER 2, 1911.

Worcester, ss.

To the constable of the town of Upton, in the County of
Worcester, Greeting:

In the name of the Commonwealth of Massachusetts you
are directed to notify the inhabitants of the town of Upton,
qualified to vote in elections and in town affairs, to meet at
the Town Hall, in said Upton, on Monday, the second day of
October, punctually at 7.45 o'clock, evening, then and there to
act on the following articles, to wit:

Article 1. To choose a moderator to preside at said meeting.

Article 2. To see if the town will vote to appropriate the
sum of five hundred (\$500) dollars to purchase supplies and
fire hose for the steam fire engine, or act in any manner per-
taining thereto.

Article 3. To see if the town will vote to appropriate the
sum of five hundred (\$500) dollars additional, for support of
schools on account of the expense caused by students from
this town attending the Industrial school at Worcester, or act
in any manner pertaining thereto.

Article 4. To see if the town will vote to appropriate the
sum of five hundred (\$500) dollars to repair the Milford road
(so called) and act thereon.

And you are directed to serve this warrant by posting up
attested copies thereof at each of the following places in said
town seven days at least before the time of holding said meet-
ing: At each of the postoffices and on the Town House in
said town.

Hereof fail not, and make due return of this warrant,
with your doings thereon, to the town clerk, before the time
and place of meeting aforesaid.

Given under our hands at Upton, this twenty-fifth day of

September, in the year of our Lord one thousand nine hundred and eleven.

WILLIAM H. MISKELL,
ALFRED YOUNG,
ARTHUR LAMSON,
Selectmen of Upton.

Upton, September 26, 1911.

By virtue of the within warrant I have this day notified the inhabitants of the town of Upton herein described, to assemble in their Town Hall on Monday, the second day of October, for the purposes within mentioned, by posting up attested copies of the within warrant in each of the postoffices and on the Town House seven days before the meeting aforesaid.

WILLIAM F. PARSHLEY,
Constable.

A true copy of the warrant and the officer's return thereon.

Attest:

FRANCIS T. NELSON,
Town Clerk.

SPECIAL TOWN MEETING, OCTOBER 2, 1911.

COMMONWEALTH OF MASSACHUSETTS.

Worcester, ss.

Pursuant to the foregoing warrant, the qualified voters of the town of Upton met in Upper Town Hall at 7.45 p. m. on the above date. The meeting was called to order by the town clerk who read the warrant and the officer's return thereon.

MODERATOR.

Article 1. The meeting made choice of Appleton P. Williams for moderator by ballot, the check-list being used, he was duly sworn by the town clerk.

HOSE AND SUPPLIES FOR STEAMER.

Article 2. Voted: To appropriate five hundred dollars to purchase hose and supplies for the steam fire engine.

INDUSTRIAL SCHOOLS.

Article 3 Voted: To appropriate five hundred dollars additional for support of schools, caused by students from this town attending the Industrial School at Worcester.

MILFORD ROAD REPAIRS.

Article 4. Chairman Miskell of the board of selectmen said in part, that the board had been trying ever since they were elected, to get some State road, that they had appeared at a hearing before the commission in April, but were told as the town had never legally asked before it would be impossible to grant any this year. About three weeks ago the secretary of the commission wrote that if the board would petition for the improvement of the road under the provisions of the Small Town Act, they would give the matter careful consideration. Under this act the town has to make a special appropriation, that is the reason this article is before you.

Voted: To appropriate five hundred dollars to make repairs on the Milford road (so called.)

Voted: To dissolve the warrant at 8 p. m.

A true record. Attest:

FRANCIS T. NELSON.

Town Clerk.

WARRANT FOR STATE ELECTION, NOVEMBER 7, 1911.

Worcester, ss.

To the constable of the town of Upton, in the county of Worcester, Greeting:

In the name of the Commonwealth of Massachusetts, you are directed to notify the inhabitants of the town of Upton, qualified to vote in elections and in town affairs, to meet at the Town Hall in said Upton, on Tuesday, the seventh day of November, punctually at six o'clock, forenoon, at which time the polls will be open for said voters to give in their votes to the selectmen of said town for:

Governor, lieutenant-governor, secretary of the commonwealth, treasurer and receiver-general, auditor, attorney-

general, councillor for the seventh councillor district, senator for the fourth Worcester senatorial district, two representatives to the general court for the ninth Worcester representative district, for said Commonwealth, county commissioner, clerk of courts, register of deeds for the county of Worcester.

The said voters will also give in their votes for or against the following Articles of Amendment to the Constitution of the State of Massachusetts :—

First. Amendment to the Constitution authorizing the use of voting machines at all elections, (Chapter 75, Resolves of 1911).

Second. Amendment to the Constitution increasing the power of the legislature to authorize the taking of land and property for highways or streets, (Chapter 91, Resolves of 1911).

All on one ballot.

The polls may be closed at 3.30 o'clock in the afternoon of said day of meeting.

At 2.30 o'clock in the afternoon on the above mentioned seventh day of November, at the same place, there will be a meeting of the above described inhabitants to act upon the following articles, namely :—

Article 1. To choose a moderator to preside at said meeting.

Article 2. To see if the town will vote to authorize the town treasurer with the approval of the selectmen, to borrow two thousand (\$2000.00) dollars, if necessary, to provide for the payment of appropriations made since the last assessment of taxes and to issue a note therefor payable within one year from the date thereof, and act thereon.

And you are directed to serve this warrant, by posting up attested copies thereof at each of the following places in said town seven days at least before the time of holding said meeting: At each of the post-offices and on the Town House in said town.

Hereof fail not, and make due return of this warrant,

with your doings thereon, to the town clerk, before the time and place of meeting aforesaid.

Given under our hands at Upton, this twenty-fifth day of October in the year of our Lord, one thousand nine hundred and eleven.

WILLIAM H. MISKELL,
ALFRED YOUNG,
ARTHUR LAMSON,
Selectmen of Upton.

Upton, Mass., October 30, 1911.

By virtue of the within warrant I have this day notified the inhabitants of the town of Upton herein described, to assemble in their Town Hall on Tuesday, November seventh, for the purposes within mentioned by posting up attested copies of the within warrant in each of the post-offices and on the Town House, seven days before the meeting aforesaid.

WILLIAM F. PARSHLEY,
Constable.

A true copy of the warrant and the officer's return thereon.

Attest:

FRANCIS T. NELSON,
Town Clerk.

STATE ELECTION, NOVEMBER 7, 1911.

COMMONWEALTH OF MASSACHUSETTS.

Worcester, ss.

In pursuance to the foregoing warrant, the inhabitants of the town of Upton, qualified by law to vote in elections and in town affairs, met in the Upper Town Hall, in said Upton, on Tuesday, November 7, 1911, for the purpose of giving in to the Selectmen their votes for state and county officers, for two proposed amendments to the Constitution of the State of Massachusetts and acting on what articles there were in the warrant.

The meeting was called to order by the town clerk at six.

.o'clock A. M. who then read the warrant and the officer's return thereon.

The cards of instruction and specimen ballots having been posted as the law directs, the ballot-box furnished by the state to be used at elections was then opened in public meeting and shown to the voters present to be empty, the register of the box being set on 000, the box was then locked and the keys thereof were delivered to William F. Parshley, constable in attendance at said meeting.

A package said to contain 600 official ballots to be used at this election was delivered to William H. Miskell, presiding officer, and his receipt therefor given to the town clerk.

J. Albert Temple, Michael Murphy, Jefferson H. Lyford and Thomas J. Gorman having been appointed ballot clerks and inspectors, they were sworn to perform the duties of their offices by the town clerk.

The seals of the package of ballots were then publicly broken by the presiding officer and delivered to the ballot clerks.

The polls were declared open for the reception of ballots at 6.10 o'clock A. M.

Thomas J. Gorman had charge of the ballot-box and J. H. Lyford had charge of the check-list at the ballot-box.

George E. Ambler, George F. Prentiss, James F. Sheehan, and Leo F. Murphy having been appointed tellers to canvass the vote, they were duly sworn by the town clerk.

By the unanimous consent of the election officers the ballot-box at 9.30 A. M. was opened, the register indexed 163 and one hundred and fifty ballots were taken therefrom for the purpose of counting the same; again at 11 A. M. the register indexed 215 and fifty ballots were taken therefrom; again at 1.30 p. m. the register indexed 305, one hundred ballots were taken therefrom; again at 3 p. m. the register indexed 351, fifty ballots taken therefrom.

Voted: To close the polls at four o'clock P. M.

At 2.30 o'clock P. M. on the above seventh day of November, at the same place, the above described inhabitants acted upon the articles in the warrant as follows:—

MODERATOR.

A title 1. The meeting made choice by ballot, the check-list being used, of Appleton P. Williams for moderator; he was duly sworn by the town clerk.

BORROWING MONEY.

Article 2. Voted: That the town treasurer, with the approval of the selectmen, be and hereby is authorized to borrow two thousand dollars, if necessary, to provide for the payment of appropriations made since the last assessment of taxes, and to issue a note therefor payable within one year from the date thereof.

Voted: To dissolve so much of the warrant as relates to town affairs.

Due notice having been given, the polls were, at four o'clock P. M., declared closed.

The register on the ballot-box stood at 375.

The names of those on the list of voters, both at the polls and at the table of the ballot clerks, which had been checked, were as follows:—

List at polls	375
List at table	375

The remaining ballots were then taken from the ballot-box and audibly counted, making the total number cast therein, three hundred seventy-five (375).

The ballots having been sorted and counted, declaration thereof was made in open meeting and recorded as follows:—

The returns were then filled out, signed by a majority of the selectmen, attested to by the town clerk, sealed up and forwarded to the Secretary of the Commonwealth as the law directs. The votes cast and the check-lists used by the election officers were then sealed up in different packages endorsed by the proper officers and delivered into the custody of

the town clerk in accordance with the law in such cases made and provided.

Voted: To dissolve the warrant at 5.45 o'clock p. m.

A true record. Attest:

FRANCIS T. NELSON,

Town Clerk.

TOWN CLERKS' MEETING AT MILFORD, NOVEMBER
17, 1911.

COMMONWEALTH OF MASSACHUSETTS.

Worcester, ss.

Milford, Mass., November 17, 1911.

In compliance with Sections 290 and 293 of Chapter 560, Acts of 1907, We, the town clerks of the towns of Hopedale, Mendon, Milford, Northbridge and Upton, which towns comprise the Ninth Worcester Representative District, this day met at the office of the town clerk in said Milford, and canvassed the return of votes in said towns for two representatives in the General Court, to be holden in Boston on the first Wednesday in January next.

Said votes were returned to us as by law required, and were given in at a legal meeting held in each of said towns for that purpose, on the seventh day of November, A. D. 1911, and was shown by the following tabular statement:—

	Hopedale.	Mendon.	Milford.	Northbridge.	Upton.	Total
Bartholomew J. Callahan of Northbridge, D.	48	32	814	381	81	1356
Matthew J. Carbary of Milford, Dem. Pro. Dem.	89	50	1251	305	102	1797
Leonard T. Gaskill of Mendon, R.	336	102	562	492	219	1711
Edwin F. Lilley of Milford, R.	370	84	853	484	230	2021
D. Dailey,			1			1
William F. Jordan,			1			1
Blanks,	91	58	634	268	118	1169
Total,	984	326	4116	1980	750	8056

Matthew J. Carbary of Milford and Edwin F. Lilley of

Milford having received the largest number of votes, were declared elected, and to them were certificates issued, also a duplicate certificate sent to the Secretary of the Commonwealth as the law requires.

In witness whereof, We, the town clerks of Hopedale, Mendon, Milford, Northbridge and Upton, have hereunto set our names this 17th day of November, A. D. 1911.

Attest:

W.M. H. JORDAN, Town Clerk of Hopedale,
HORACE C. ADAMS, Town Clerk of Mendon,
DENNIS J. SULLIVAN, Town Clerk of Milford,
JOSEPH A. JOHNSTON, Town Clerk of Northbridge,
FRANCIS T. NELSON, Town Clerk of Upton.

A true record. Attest:

FRANCIS T. NELSON,
Town Clerk.

TERMS.

	High School.	Grades.
Spring, 1912	12 weeks,	11 weeks..
Fall, 1912	16 weeks,	15 weeks..
Winter, 1913	10 weeks,	10 weeks..
Spring, 1913	12 weeks,	11 weeks..

Schools may be closed at the end of the Fall, Winter and Spring terms at noon; at the Thanksgiving recess at noon Wednesday. On any days when special exercises are held in the afternoon and visitors are present, at the close of the exercises.

If any exigency arises which necessitates other closing, notice must be sent to school office, and this regardless of who authorizes the closing.

If at any time a teacher is unavoidably absent, immediate report must be made to the office by telephone at town expense. A substitute will be furnished if possible.

SCHOOL SESSIONS AND RECESSSES.

High School, 8 A. M. to 1 P. M., with 15 minutes' recess.

Common Schools, 9 to 11.45 A. M., 1 to 3.45 P. M., with 15 minutes' recess each session.

STORM SIGNALS FOR NO-SESSION OF THE COMMON SCHOOLS.

The signal is given at 7.30 A. M. by ringing the Congregational Church bell at Upton Center and the Unitarian Church bell at West Upton at half minute intervals.

There is not a no-school signal for no-session of the High School.

REPORT OF SUPERINTENDENT OF SCHOOLS.

To THE SCHOOL COMMITTEE OF UPTON, MASS. :—

GENTLEMEN :—

Herewith is presented my second annual report, the twenty-first in the series of superintendent's reports since the formation of the union with Grafton.

The school report should be regarded as an important source of information concerning the schools. Too often a passing glance measures the degree of attention accorded it. Under a government such as ours the only firm support good schools can have lies in an interested and informed public sentiment. A fountain rises no higher than its source and the schools of a community can reach no higher standard than that set for them by the town or city that pays for them. This is trite doctrine but it needs today more than passive acceptance; it needs practice.

The present report makes no special claim upon the attention, but, like those of preceding years, deserves to be regarded as something more than a legal requirement.

BUILDINGS AND REPAIRS.

The repairs made during the year include the following items :—

Scraping and re-painting the walls and ceiling of the fifth and sixth grade room at the Center.

Putting three slate blackboards in the Center building.

Repairing heating plant at Center building.

Overhauling outhouses at the Center.

Oiling floors of the High school building and the Center.

Repairing steam plant at High school building.

The Center building is old and unsanitary. Not many years can elapse before the town must feel the necessity of providing better quarters for the children of that section. The

building is not susceptible of radical improvement. It will be wise, therefore, to make only such annual expenditures upon it as contribute to the comfort, convenience, and wholesome appearance of the interior. At the present time there are several needs of this character, among them the following may be mentioned :—

On one side of each of the rooms on the lower floor is a wide platform which now serves no useful purpose. The removal of this platform, the placing of the seats farther apart, and the widening of the aisles, seem to me quite desirable.

The wood work of the entries, the stairway, and the upper hall is sadly in need of paint.

Defaced desk tops not only mar greatly the appearance of the rooms, but they suggest to pupils further marring and cutting, and, thereby, encourage a wrong tendency toward school property in general. I suggest that the desks of all the buildings be inspected and that such as need it be scoured and re-varnished.

GRADING.

The grading of the grounds in front of the High school is still a matter of the future. In the school report of 1909 it was stated that a fund of \$900 was available at the proper time for use in improving the grounds about the Center and High school buildings. I do not know just the conditions under which the subscriptions for this purpose were secured, but it would seem as if a small addition to this sum would enable the work to be done well. The walk in front of the High school building is an eyesore, and fragments from it are constantly strewn over the grass ground. I wish the School Committee might take up the matter with the custodians of the fund, and that an earnest effort might be made to bring to fruition the plans of those who initiated the project.

MEMBERSHIP AND ATTENDANCE.

The average membership of your schools for the year ending June, 1911, was 308.2; the percentage of attendance, 92.7.

The average membership, attendance, and percentage of attendance during the last five years are shown below.

Year.	Av. Membership.	Av. Attendance.	Per cent. of Attendance.
1906-1907	329.4	303.4	92.1
1907-1908	317.2	297.8	93.7
1908-1909	322.6	300.8	93.6
1909-1910	316.9	294.2	92.8
1910-1911	308.2	285.7	92.7

AGE OF ADMISSION AND LENGTH OF ELEMENTARY COURSE.

In harmony with the tendency in Massachusetts, the length of the elementary course of study in Upton is eight years. Contrary to the general tendency, however, and also, the well-nigh universal belief of educators, is the admission of beginners at the age of five. In changing from a nine to an eight-year course most systems have preferred to raise the age of admission to six years. It is my conviction that either this should be done in Upton, or that the first grade should be divided early in the year into two divisions, one composed of the more mature children, and the other of those less developed. In the absence of a kindergarten I believe the latter plan is preferable. Under such a plan the work of the first division should be organized so as to enable the completion of the work in eight years; that of the second division in nine years. The division of the children should be based on their mental development, and not merely on age. Doubtless most

of those in the first division would be six years old, but children of five, mature for their age, and children of six, immature, should be placed with reference to this difference. The work of the first division should be speeded to the eight-year course; that of the second should be of a character to prepare for regular primary work.

In recommending to you the organization of a sub-primary grade, I am merely asking practical recognition of a condition that already exists. The principal reason for an eight rather than a nine-year course for pupils admitted at five lies in the assumed saving of time by such a plan. Experience has demonstrated that there is no gain of time. Reports received and collated by Dr. Prince of the State Board show that the average age of pupils graduating from the eight-year course to which children are admitted at five is fourteen years and four months, while that of children graduating from the nine-year course is fourteen years and five months. The difference of one month is inconsiderable. The figures just given are substantiated by the condition in Upton schools. The average age of the present freshman class in our High school was in September fourteen years and three months; the average age of the previous freshman class was fourteen years and nine months. It is clear that many of the pupils under the present organization either have to repeat a grade somewhere or else do not enter school until six years of age. As a matter of fact both these conditions exist.

Following are two tables showing age and grade distribution in September, 1910, and in September, 1911. The heavy line in each column has above it the number of children of normal age, according to our standard, and below it the number too old for the grade.

Examination of the tables reveals the fact that in September, 1910, 26.6 per cent. of the pupils were too old for their grades; in September of the current year, 24.1 per cent. were in the same condition.

That many parents are preferring to enter their children at a later age than five is suggested by the table. In 1910

there were thirty-seven pupils in Grade I., of whom seven were "repeaters," leaving thirty as the number of beginners. Of these, fifteen, or fifty per cent., were six years of age or older. In 1911 somewhat over fifty per cent. were six or over.

It is obvious that, as a rule, children of five and children of six are not qualified to do the same grade of work. The recognition of this fact by the formation of two divisions in Grade I. would, in my judgment, lead to more profitable results for each class.

COMPARATIVE LENGTH OF OUR SCHOOL YEAR.

The school year in Upton is shorter than the average for the State. The following table gives the length of the average year for the state and the length of the school year in Upton for the last five years.

LENGTH OF SCHOOL YEAR.

Year.	Average number of months and days the public schools were kept in Massachusetts.	Average number of months and days the public schools were kept in Upton.
1905-06	9 months, 7 days	8 months, 13 days
1906-07	9 months, 7 days	8 months, 13 days
1907-08	9 months, 8 days	8 months, 10 days
1908-09	9 months, 6 days	8 months, 16 days
1909-10	9 months, 6 days	8 months, 13 days

The nominal length of the grade school year in Upton is thirty-six weeks; the actual length is indicated in the above table. It will be noted that our schools are in session less by nearly three weeks than the average for the state.

CHANGE IN LENGTH OF SCHOOL DAY.

In accordance with the recommendation in last year's report the length of the school day has been increased fifteen minutes. This was accomplished by shortening the noon hour from one hour and thirty minutes to one hour and fifteen minutes. Pupils who eat their dinners at home find the present period sufficient, and the large number of barge children, who spend the entire noon hour at the school building, are certainly better cared for under the present arrangement. The increase gives an additional one and one-fourth hours per week for school purposes. During the fall term, while many of the teachers were new and becoming accustomed to their position, this time was given to the regular school work. From now on it is planned to devote the time in a large measure to weaving, basketry, and other forms of manual training. The aggregate gain in hours due to the lengthening of the school day fifteen minutes amounts in a year to nearly two weeks.

TEACHERS.

Only two of last year's teachers are found in the present corps. One of these, Miss Hackett, leaves us on February 12.

The following table gives the name, position held in Up-

ton, salary paid in Upton, present location and present salary, in so far as known, of each teacher who has left us. This table is instructive in that it indicates why so many teachers leave us after a year of service.

TEACHERS WHO HAVE LEFT UPTON SCHOOLS THIS YEAR.

Name.	Upton Position.	Upton Salary.	Present Position.	Present Salary.
Gertrude Holland,	High School,	\$450, Quincy,		\$650
Helen M. Smith,	High School,	400, Not known		—
Grace N. Farnsworth,	Grade VIII.,	360, Hyannis,	Student.	
Margaret Burgess,	Grade VII.,	378, Mattapoiset,		525
Mabel Mathewson,	Grades V. VI.,	360, Norwood,		500
Mildred Simmons,	Grades III. IV.,	380, Manchester N.H.		500
Isabel M. Hall,	Grades I. II.,	360, So. Framingham,		500
Dorothy Haviland,	Grades I. II.,	360, Hudson,		450
Georgia M. Donahue,	Grades V. VI.,	378, Winchendon,		450
Bertha Ainsworth,	Grades I. II.,	396, Needham,		550
Maybell Hackett,	Grades III. IV.,	378, Cambridge,		510

It will be noted that nine teachers have resigned since the last report to accept positions at distinctly better salaries.

THE SALARY QUESTION AGAIN.

The history of Upton schools indicates one constant condition, viz.: seventy-five per cent of the schools are always in the charge of new teachers. The table just given suggests one remedy, viz., higher salaries. It may be urged, however, that if higher salaries were paid we should still lose our teachers. This is true, but an increase of the maximum to \$450 a year would undoubtedly enable the retention of many of our best teachers for two or three years. The prospect of a second year of service with no appreciable increase of salary induces teachers to begin candidating. At the present time \$378 a year is our maximum salary for a grade teacher. The principal of a building occasionally receives \$396 or, very infrequently, \$410. If we could increase the salaries of our best teachers to \$450 for a second year of service I am confident many of them would remain with us. If we should be called

upon to pay all of our teachers this maximum in any one year, it would require an additional appropriation of \$576. It is improbable that we should ever need to pay the maximum to more than half the corps at any one time. An increase of \$300 in the amount devoted to teachers' salaries is a fair estimate of the additional amount needed in order to raise our maximum to \$450. An increase in the tax levy for school purposes of less than ONE-THIRD of a mill on the dollar would enable this.

LOCAL TEACHERS.

A remedy other than raising our maximum salary is suggested, viz., local teachers. If well-trained, capable, efficient local teachers can be secured and retained for \$378 per year of thirty-six weeks, a weekly wage of \$7.25 for the calendar year, I am heartily in favor of such a course. Can they be so secured and retained? Is it likely that a young woman who has given four years in the high school and from two to four years in the normal school to prepare for teaching will be satisfied with a weekly wage of \$7.25? Willingness to do so would indicate lack of ambition or lack of ability, or, in other words, inefficiency, unless, of course, there were home conditions which made such a course necessary. The ambitious, efficient teacher, even if new to her school every year, is preferable to the unambitious, inefficient teacher of longer tenure. Deducting from the number of normal school graduates likely to live in Upton, those whose ability and efficiency would lead them to aspire higher, the number of available local teachers will always be inconsiderable.

The valuation of Upton is low, the tax rate high. If the sum at present available for teachers' salaries is as much as the voters feel that they can expend for this purpose, it is evident that our schools must continue to face the condition of constant change in the teaching corps. Three cents on every hundred added to the present tax levy for school purposes would help greatly in the retention of teachers. Is it worth it?

The teachers of the present corps are earnest, sensible,

well-trained young women. I wish we could keep them beyond the present year.

THE CURRICULUM.

The following changes have been made in the course of study since the last report.

I. The semi-slant system of penmanship has displaced the vertical in the first four grades.

II. A new outline of the work in arithmetic has been placed in the schools.

III. The course in drawing has been more closely correlated with the other work of the schools. A class in mechanical drawing has been started in the high school.

IV. The equipment for bench work has been greatly increased and the instruction systematized and rendered more adequate.

V. The teaching of thrift has been introduced and is rendered effective through the operation of a school savings bank.

VI. The rules and regulations governing the conduct of the school work have been revised and modified.

PENMANSHIP.

The penmanship throughout the school is unsatisfactory. This complaint is by no means unique or new. A glance at school papers of almost any date reveals a large percentage of poor writers. The causes of this condition are variously stated. By some, poor writing is attributed to the system taught, whether acute-slant, semi-slant, or vertical; by others to the fact that too much writing is required; by others to the natural capabilities of children; and by still others to the method of teaching the subject.

A few years ago when the use of the slant was universal the vertical was strongly urged as a remedy for the poor results in the schools. It has not so proven itself. Business men have protested against it, and the slant system in modified form has replaced it practically everywhere. Upton has fallen in line by adopting the slant for use in the first four

grades. Children who have been taught the vertical for four years will continue the same system, while those now beginning the slant will have it throughout the grades.

The excessive amount of writing required undoubtedly tends to injure the penmanship. Proof of this is seen in the rapid deterioration of a pupil's hand-writing after he enters grades where much written work is required. Very frequently the parent of a child in the grammar or the high school says:—"J—— wrote well when he was in the primary grades but one can scarcely read his writing now." Less written work and more oral work in the intermediate and grammar grades would save time for needed drill and instruction in other subjects, and also secure better penmanship.

The method of teaching writing has much to do with the result. Absence of method characterizes the presentation of the subject in most of our schools. It is only recently that normal schools have trained their pupils in this branch. It is probable that as we are able to secure teachers trained in teaching penmanship we shall get better results in our schools. It may be worth while in the future to endeavor to secure at least one teacher in each building who is a graduate of a normal school where there is special instruction in penmanship, and to arrange to have her supervise the teaching of the subject in the building.

Our schools have been striving especially this year to bring up the standard of work in reading and arithmetic. I believe our next effort should be in the direction of better penmanship.

ARITHMETIC.

The new outline in arithmetic provides for the teaching of some number in the first grade, simplifies the method of presenting the primary number facts, and calls for careful drill upon them, gives oral work a prominent place in every grade, emphasizes accuracy and training in analysis, and distributes the work through the grades in a way to fix responsibility for failure. The work of the schools in arithmetic is not satis-

factory but it is certain that definite gains are being made this year.

DRAWING.

The course of study in drawing has been considerably modified. The changes have been in the direction of a closer correlation of drawing with the other school subjects and with manual training. In the limited time at her disposal the Supervisor of Drawing has a difficult task. The constant changes in the teaching force greatly complicate it. In my opinion remarkably good work is being done even under these conditions.

MECHANICAL DRAWING.

The formation of a class in mechanical drawing in the high school fills a long felt need. This has been rendered possible through the interest and co-operation of the Principal, who takes the class himself in the absence of time for this purpose by the Supervisor of Drawing.

MANUAL TRAINING.

The Home Literary Club has continued and increased its support of this department during the year. The interest, the very generous financial support, the spirit in which the assistance of the ladies of the club is given, are greatly appreciated by the school department and should be by the entire community. It is unnecessary to mention here reasons why manual training should be given in the schools, previous reports have discussed the subject thoroughly. Manual training is as desirable a part of a good system of schools as arithmetic; it is regarded as one of the essentials wherever high standards of education obtain.

The manual work below the seventh grade consists of raffia braiding, hand-loom weaving, basketry, card board construction work, and plasticine moulding. It is in the charge of the Supervisor of Drawing. About one hour each week is used for this purpose. The increase in the length of the school day enables this work to be done without taking any of

the time heretofore used for instruction in the required subjects. Present indications point to the accomplishment of some very satisfactory work before June.

The most noteworthy development in the manual training department has been in the direction of bench work. Heretofore, with only four benches, and these inadequately supplied with tools, most of the boys of the upper grades were relegated a good share of the time to the role of observers, a relatively unprofitable part for them. In December an equipment of eight benches well supplied with tools was completed, and Upton united with Grafton in engaging an instructor. Mr. Dana M. Stanley, a graduate of the Larsen Sloyd school, now gives one-half a day each week to Upton. The seventeen boys of the seventh and eighth grades work in two divisions, each division having one hour and fifteen minutes of instruction each week. Under present condition of equipment, instruction, and time, something worth while should be accomplished.

While the boys are receiving instruction in wood working a class in sewing is conducted for the girls.

The expenditures of the Home Literary club in support of manual training for the year ending February 1, 1912, have been as follows:—

Supplies for manual work in lower grades	.	.	\$16 84
Salary of Miss Leary for sixteen weeks	.	.	32 00
New benches and tools	.	.	60 71
Salary of Mr. Stanley to February 1, 1912	.	.	16 62
 Total	.	.	\$126 17

THRIFT.

The legislature of 1910 made the teaching of Thrift a part of the work of the public schools. In last year's report it was pointed out that the most effective way to teach Thrift was by fostering habits of economy and self control. As a means of doing this and of cultivating the feeling of personal ownership, it was recommended that a School Savings Bank

be established. Following a plan recommended by the state such a system has been introduced. The first collections were made October 31st, 1911. The following statement indicates the results of operation from that time to January 23d, 1912.

SCHOOL SAVINGS BANK—OCTOBER 31, 1911—JANUARY 23, 1912.

Grade	Number of depositors	Total deposited	Average deposit per pupil	Number of books issued by Grafton Savings Bank
I.	17	\$ 7.49	\$.44	
II.	12	8.84	.74	
III.	16	13.67	.85	1
IV.	19	26.08	1.37	1
V.	16	28.79	1.80	1
VI.	12	14.25	1.18	
VII.	13	11.52	.89	
VIII.	10	13.57	1.35	
Total	115	\$124.21	\$1.08	3

REQUIRED AND PERMISSIVE SUBJECTS.

The subjects taught in our public schools are of two classes, viz., required and permissive. The following are required by law to be taught in all public schools: Spelling, reading, writing, English language and grammar, geography, arithmetic, drawing, history of the United States, physiology and hygiene, and good behavior. Of the permissive subjects, elementary science, manual training, sewing, vocal music, physical training, and thrift receive attention in Upton schools. It may be of interest to know that nearly 80 per cent, or four-fifths, of the time in school is given to instruction in the required subjects.

HIGH SCHOOL.

An item of interest to the thoughtful citizen is the extent to which the high school meets its possibilities of enrolment. Under careful investigation the somewhat common impression that the high school serves only a selected few is discredited.

In Upton an unusually large per cent of those entering the primary school finish the grammar grades and do some work in the high school. Records have not been kept long enough to enable one to determine exactly what per cent do this but it is possible to approximate the result.

The average membership of all your schools in the year 1909-10 was 316.9, that of the high school, 71.4. If conditions were perfect and each pupil passed through all the grades, including the four grades of the high school, each grade would contain one-twelfth of the pupils. Disregarding the necessary losses, there could never be more than four-twelfths, or $33\frac{1}{3}$ per cent of the total enrolment, in the high school. If 22.5 percent of the total enrolment is in the high school, which was the case in 1909-10, then the ratio of this percentage to the percentage of the school's possibilities, $33\frac{1}{3}$ per cent, is approximately the per cent of children who are reaching the high school. In the year 1909-10 Upton high school realized 67.5 per cent of its possibilities of enrolment. In 1910-11 the per cent was 61.8. January 31, 1912, the enrolment was 60 per cent of the possible number. The fact that so large a per cent of all the children enter the high school should stimulate interest in it on the part of citizens and lead to an increased effort to make it more efficient in meeting the demands made upon it.

At no time since my connection with Upton schools have I been so well pleased with the work of the high school as at present. In discipline, in quality of teaching, in standard of scholarship, the school has made distinct progress during the year. We have been fortunate in the retention of the principal and in securing efficient assistants to replace those who have resigned since the last report.

MEDICAL INSPECTION.

The results of the eye and ear tests given by the teachers are as follows:—

Number of pupils examined	281
Number found defective in eyesight	34
Number found defective in hearing	9
Notifications sent	43

CULTIVATING THE SENSE OF PERSONAL RESPONSIBILITY.

It has been stated that the greatest weakness in the education of the present is in its inefficiency in developing a responsible human being. This indictment, if true, is certainly a serious one. The pressing demand of society today is for men and women who can be relied upon to accomplish what is entrusted to them, and failure to cultivate this sense of personal responsibility is of vital concern. Are the schools failing in this? If so, whose is the fault?

The sense of responsibility can be cultivated in only one way, viz., by placing children under conditions which tend to develop it. It is perfectly obvious that it cannot be produced by shielding children from it. The sense of responsibility can be developed in school by the feeling on the part of the child that he is responsible for the success of his work there. Does this feeling exist in so great a measure as it ought? Says Dean Briggs, "Many parents regard school and college as far less serious in demands than business: a place of delightful irresponsibility where youth may disport himself for a season before he is condemned to hard labor." "A place of delightful irresponsibility" is a very good expression of the feeling many *pupils*, also, manifest toward the school. It should be made perfectly plain to the young that the school is a far different place than this; that it is, indeed, a place where the benefit derived is almost entirely dependent upon the effort put forth on the part of the pupil. It is exceedingly unfortunate that so many children in the grammar and high school should feel, as expressed by their conduct, in the words of Professor Briggs, "If you want us to be virtuous, heroic, learned, and accomplished, you will have to exert yourselves, we want to gratify you but we will tolerate nothing dry, nothing hard, nothing ascetic. The duty of the preacher and the teacher is to waft us to Heaven or Parnassus on gentle zephyrs: otherwise each must endure the pain of seeing us go elsewhere."

The home should less often become the advocate of the

child against the school, less frequently seek to save him from the consequences of his idleness and mischief. The home can help the school to cultivate the sense of personal responsibility by causing the child to feel from the beginning that what he does in school is dependent very largely upon his personal effort, and that he must suffer the consequences if he is unsuccessful.

The reports of the Principal of the High School, the Supervisor of Music and Drawing, and the Supervisor of Sloyd, follow.

To the Members of the School Committee I wish to express my appreciation of their uniform kindness and courtesy. It has been a pleasure to work with them in the conduct of the schools.

Respectfully submitted,

CHARLES F. PRIOR,

Superintendent of Schools.

REPORT OF PRINCIPAL OF HIGH SCHOOL.

To Mr. CHARLES F. PRIOR, SUPERINTENDENT OF SCHOOLS,
UPTON, MASSACHUSETTS:—

I submit herewith my third annual report as Principal of
the Upton High School:

The enrollment at the time of my last report was 71, and
during the remainder of the school year six left school, for
various reasons, leaving a membership of 65 at the close of the
year, and a class of twelve were graduated. The total enrollment
for this year is 66, distributed as follows:—

Class.	Senior.	Junior.	Sophomore.	Freshman.	Total.
Boys	2	7	9	11	29
Girls	9	7	8	13	37
	—	—	—	—	—
	11	14	17	24	66

The average membership for the ninety days of the pre-
sent school year has been 64.44, and the average attendance
62.33, or 96.72 per cent. Fourteen pupils have not been
absent. The total number of absences has been 195, of which 97
were caused by sickness. Four have dropped out since Sep-
tember.

The graduating class was composed of four boys and
eight girls. Two of the boys have entered college, three of the
girls have entered normal school, and several of the others
have hopes of going to some higher school in the near future.
I called attention last year to the fact that all of the members
of the class of 1910 had entered some higher school or had
definite plans to do so. A recent inquiry shows that there are
in school at present 17 who hope to go to college, 6 to normal
school, 3 to trade school, 11 to business college, 2 to technical
school, and 5 to other schools. These facts indicate a tendency
among our pupils not to be satisfied with the education
that the public schools can give them.

It is true that the majority of boys and girls who enter

the High school do not go further and may not even graduate, and therefore the first duty of the school is to fit these so far as possible to become useful, efficient, law-abiding citizens. But we do not forget that it is also the duty of a High School to prepare the more ambitious ones so that they may enter college or normal school without the necessity of going to some other preparatory school. For the past four years we have had the privilege of sending our graduates to any of the colleges represented in the New England College Entrance Certificate Board, and as a consequence to any of the State Normal Schools, on certificates. Last April the privilege was extended for another year, and we have reason to expect that it will be so extended so long as our work is good. I mention this because there has been a mistaken report that we no longer had the privilege.

Under the present arrangement of the course of study no pupil is required to take more than four subjects each year in order to get the necessary credits for graduation, but this year nine of the eleven Seniors, eight of the twelve Juniors, eight of the seventeen Sophomores, and five of the twenty-two Freshmen have taken up extra work, and in only seven cases because of credits to be made up from previous years. The fact that two-thirds of the pupils above the Freshman class have enough interest in their work to take up extra studies is very gratifying.

There is another phase of the school work, however, that is not so pleasing, and that demands our attention. There are each year in the entering class a number who fail to do good work, some from lack of interest and some from an apparently defective preparation. There are at present seven Sophomores, three Juniors, and two Seniors who are repeating work that they had failed to do well. Both those who shirk and those who fail after an honest effort could trace the reason for failure to some defect in their earlier training, the former to a habit of shirking which they were allowed to form in the grades, and the latter to too rapid promotion on work which only seemed to be well done and which they did not fully grasp on account of immaturity of mind. It would have been

far better for many such to have been held back in the grades until they were ready to do profitable work in the high school, rather than to have to be dropped back to the eighth grade, as two of this entering class have now to be dropped, under our credit rule, or to have been put under the handicap of making up for failures in later years of their course. Whether the defect can best be remedied in the future by introducing a ninth grade below the High School, or by raising the age limit for entering school from five to six years, or by exercising more care in making promotions, is a question that is out of my province. It is my duty to call attention to it, and to do all in my power to give all who may come to the High School every opportunity to do good work. It has been pleasing to me to see some who have been thus handicapped in their Freshman and Sophomore years make earnest efforts to redeem themselves in their Junior and Senior years, and I expect to see several such succeed and be graduated next June.

The discipline of the school has been more rigorous than last year, and though there has been a little friction on account of some who were not pleased, there is quite a general spirit of willingness to observe all reasonable requirements that school conditions demand when it is pointed out that they are just and fair. We regard it as one of our most important duties to train for good conduct and an appreciation of the social obligations that our mode of living has placed upon the individual, both in and out of school.

The usual school socials have occurred during the year, and they have always been pleasant gatherings of the pupils and parents. The demand for them is not great, however, and one each term seems to be enough. They should, as they do at present, occupy a very small part in the life of the school, for they aid but little in the real aim of the school. The abandoning of the annual senior class play is the only important change in our social policy, and the effect of it has been good. The great amount of time and serious thought that was required for the production of such a play has been largely turned to the proper school activities, and the results ought to be still more beneficial in the future, after the classes who

felt the disappointment consequent to the change have been graduated.

This year a few changes in the course of study have been made in an effort to strengthen it. The courses in Ancient and English History have been changed, so that the Ancient History comes in the first year and the English History will alternate with American History in the third and fourth years. The Commercial courses have been changed so that the Sophomores now have a full year of Commercial Arithmetic. Next year they will take up Bookkeeping, which has been a Senior course, and it is hoped that when they become Seniors a course in Stenography and perhaps in Typewriting may be offered. A course of one period per week in Mechanical Drawing was begun early in the fall. Sixteen pupils began the course and twelve will probably continue it through the year. We hope that more may be made of this subject next year, but the present teaching force is not large enough to take on any more extra work.

As I have said in my previous reports, the most pressing need of the school is for a third assistant teacher. The subjects taught may be placed in four groups—Science and Mathematics, History and English, Languages, and Commercial subjects. The three first groups are essential in any high school that is to meet the requirements of the law and of preparation for college, normal or technical schools. And it is not possible to get teachers who are specialists in one of these groups of subjects and in Commercial subjects also for the salary that is now paid to an assistant teacher. It is therefore necessary to treat the Commercial subjects as of less importance than the others. Another teacher could be secured, with special preparation in Commercial subjects, who would also be able to take one or two of the others, and then the classes in History and Science that are now doubled could be separated and taught more efficiently, and the courses mentioned above could be extended.

Other needs of the school are for changes in text books in Botany, English Composition, and elementary science, the texts now in use being inferior to some that have been pub-

lished since they were first used ; laboratory apparatus, reference books, and other equipment that need to be renewed a little at a time as they become worn out or out of date. It seems almost superfluous to add that there is need of a new walk in front of the building and of grading the grounds, for these are needs that must be very apparent to every resident of the town who has any civic pride.

In closing, let me express my very great appreciation of your ever helpful advice and suggestions, the interest and support of the school committee, and the conscientious, earnest work of the assistant teachers.

Very respectfully,

VERNON S. AMES.

Upton, Massachusetts, January 30, 1912.

Upton High School.

GRADUATION EXERCISES.

OF THE

Class of 1911,

Thursday Evening, June 22,

REPORT OF DRAWING, MUSIC, AND MANUAL TRAINING.

MR. C. F. PRIOR, SUPERINTENDENT OF SCHOOLS.

Dear Sir:—In my report of last year concerning the drawing and manual training I called your attention to what I considered were two important reasons for failure to secure satisfactory results in these departments. I suggested as remedies that more time and attention be given to actual drawing, and that the manual training be reduced to some system where a more perfect correlation could be effected. With this in view I prepared new outlines for the beginning of the fall term, in which, under the title of Manual Arts, the drawing and manual training are so closely related and woven together that neither can be considered alone. More time has also been allotted to the subject and we are now working under conditions where we can reasonably expect good results. In fact we are already securing good results with a far greater per cent of children than ever before.

Our aim is to develop the thinking power of the children through exercises for the eye and hand, and so train them to appreciate the beauty in nature and man's productions that whatever is constructed may not only be strong and useful, but may be made to conform to the laws of beauty as expressed in good proportion, line and color.

Design and art are really at the foundation of all industrial work. Therefore drawing, if properly taught, becomes a most valuable study for developing the imagination and concentrating the mind upon the problems under consideration. For the purpose of stimulating the originality and furnishing helpful suggestions to teachers and pupils copies of the Manual Arts Drawing Books have been placed in all the grades.

The various projects to be carried out during the year are selected from the whole field of education with a view to link-

ing the interests of the pupil with the life of the school, the home and the local industries of the town. In connection with these instruction is given in the proper use of tools beginning with the very simplest, such as a pencil or crayon in the hand of the pupil, and increasing in difficulty in proportion to the variety of manipulation demanded by the successive problems.

Throughout the first six grades both boys and girls work together at the different crafts with such materials as yarn, cardboard, raffia, reed, etc. The various exercises are planned to develop the ability to draw patterns, make plans and give training in judgment and accuracy in the use of simple tools, so that by the time the seventh and eighth grades are reached the boys are prepared to take up bench work in the manual training room and the girls to carry out their problems in the sewing department.

There has been an unusual improvement in music in the schools as a whole throughout the year. In Grade I the major portion of the time, which is but ten minutes a day, is devoted to rote singing. Individual exercises in ear training are given during the last half of the year. In Grade II less time is given to rote singing and more to individual work in ear training and sight reading. Beginning with Grades III and IV the Harmonic readers are used. New books have recently been supplied to Grade III at the Knowlton building. All other schools with the exception of Grades V and VI at the Center are using the books of the Natural series.

As in my last report I am still of the opinion that a chart in the primary rooms is an essential step needed between the blackboard work and the music books. The most desirable one that I have found is the Hayden Melodic Chart, the material of which is especially prepared for that purpose.

In the High school, beside the regular supply of octavo music for the year, the new book "Institute Songs" supplies a long felt need of material for daily practice.

In closing I wish to acknowledge my indebtedness to the principal, Vernon S. Ames, for the active interest he has taken

at all times in my work, to the grade teachers for their hearty co-operation, and to you for cordial support in all my undertakings.

Respectfully submitted,

FLORA M. RANDALL.

Grafton, Mass., January 29, 1912.

REPORT OF SUPERVISOR OF SLOYD.

MR. C. F. PRIOR, SUPERINTENDENT OF SCHOOLS.

Dear Sir:—Since I have just begun my duties as Supervisor of Manual Training, I cannot say much about the work accomplished, but must confine my report to what I hope to accomplish. I wish, also, to make clear to all the real object of Manual Training.

My services began the week before Christmas vacation. I found the equipment rather meager but what tools there were were of very good quality. We have since increased the number and have now tools enough, with a few exceptions, to do nearly all the work planned for the year.

The boys buy their own lumber and are very much interested in their work, even working beyond the regular hours, when it doesn't interfere with their other school work. This work allows the boys to exercise freely and it also relieves to a certain extent the monotony of the regular routine work.

The boys make first some simple object, such as a plant label or trousers hanger, that requires the use of the jack-plane, rip-saw, try-square, marking-gauge, buck-saw, block-plane, and bit. Each new object requires the use of some tool not previously used, and if the boy continues the work for two or more years, he has become quite proficient in the use of all the common tools used by the carpenter.

Although we aim to make the boy skillful, that is not the true aim of our work. Our aim is, also, that of the higher education. We try to give the child an all-round development, i. e., a mental, physical, and moral development. Manual training causes a boy to use his senses to the utmost. If, for instance, he is planing a board, he must think and watch the line with extreme care. He can't be looking out of the window, if he does he will spoil his wood. He must be care-

ful in all his work or he will fall short in measurements. Physically, the boy is developed by the constant and varied use of his muscles and by working in good positions. Morally, he is developed by acknowledging his errors as he sees them in concrete form, and by striving to do all he does well.

Miss Randall has consented to correlate her work with mine. The boys will be much more interested in drawing an object that they will presently make of wood. They can also see why certain things are necessary in drawing, if they can see it in the third dimension. I wish to thank Miss Randall for the service she has already been to me.

I wish also to express my gratitude to Superintendent Prior for his hearty support in getting this work so well under way.

Respectfully submitted,

DANA A. STANLEY,
Supervisor of Sloyd.
