Mr. George W. Knowlton, Jr., read the following letter:

December 10, 1923.

"To the Chairman of the Selectmen:

Appreciating fully the need of a school building to take the place of the present Center school building, and also realizing the burden of high taxes to the people of Upton, I have decided to make the town of Upton a Christmas present of \$20,000.00 to be used to build a new school building to take the place of the Center School building. You will find enclosed herewith a check for \$20,000.00.

It is my desire that this gift shall not be made public until the adjourned town meeting, February 9, 1924. I wish this announcement to come to the people of Upton, at their regular meeting, as an entire surprise.

SUMMARY.

1,648 loads gravel used.

23,646 gals. road oil used.

9.1 miles of road oiled.

24 ft. of 24 inch corr. pipe culvert used.

96 ft. of 12 inch corr. pipe culvert used.

44.5 miles brush cut.

REMARKS.

The roadwork in this town is entirely satisfactory. Almost all the roads have been scraped, and 44.5 miles of brush cut and burned. All roads are being widened, and those in the center of the town were oiled, using 1-3 gallon application per square yard. The total amount of oil used amounted to 23,646 gallons, and should advise the town to continue this work another season.

The Town should try to increase its allotment so that this oil work may be extended each year.

On the Glen View Avenue, near School House, 550 feet of stone fill was laid and covered with gravel. On the Westboro Road, 1200 feet of roadway was widened by stone fill, and 2800 ft. of roadway gravelled.

Considerable number of the roads were gravelled, and 1648 loads of gravel used, covering a total length of 12646 lin. feet.

New culverts were laid on some of the streets, and several old culverts were cleaned.

The Superintendent of Streets is a capable man for the position and strongly recommend his reappointment another year.

Respectfully submitted,

R. A. VESPER,

Chapter 81 Assistant.

LIBRARIAN'S REPORT.

TO THE TRUSTEES OF THE UPTON LIBRARY:—

The librarian herewith submits her seventh annual report, following which are library statistics and catalogue of new books.

During the year books have been purchased and added to the "Dr. Carpenter Alcove" as required.

Fresh paint, white on the woodwork of the main library and french gray on the walls and floor at the branch, has done much to improve the appearance of both rooms.

STATE CERTIFICATES.

The names of those who have received State Certificates for reading are as follows:

1. Five-book certificates:

Barbara Allen, Winifred Craib, Aubrey Ballou,
Shirley Goodridge, Grace Hart, Carrie Jefferson,
Esther Judd, Geraldine Ogden, Erben Walters,
Milo Welch and Lois Wood.

2. Twenty-book or Honor certificates:

Gladys Clark, Helen Crooker, Shirley Fiske,
Lillian Victor, Carl Walters.

BRANCH LIBRARY.

As may be seen in the table of statistics, the branch library in West Upton has been open 94 days, with a total circulation of 2,910 and 108 borrowers enrolled.

Books have been changed frequently during the year. After

the new shelves were built, more books were added to the collection which now numbers 425.

Mrs. Edward E. Whiting has given to the branch two framed pictures, a collection of 20 books for boys and several books for adults.

LIBRARY BUILDING.

While the center children were obliged to attend school in a condemned building, it was unfair to wish for a new library; but now the desire grows for a centrally located building that will be as modern and complete for a library as the George S. Ball building is for a school.

To mention only two of many inconvenient features of the present quarters: The library room is too small, eight thousand volumes being crowded onto shelves built to accommodate about five thousand. Many children use the library, but there is no space for even one small table for them and the higher shelves in their alcove are far out of their reach.

While it will doubtless be many years before Upton will be able to build a library, we urge that the need be remembered and that any opportunity to start a fund be grasped.

GIFTS.

Gifts have been received from the following named persons and organizations: Alpha Portland Cement Co., American Woolen Co., Bancroft Memorial Library, Boni & Liveright, Boston Public Library, Chemical Rubber Co., Chicago Daily News, Columbia University, A. R. Erskine, Jim Ferguson, Good Housekeeping, George W. Knowlton, Jr., Mrs. Harold Knowlton, Macmillan Co., Commonwealth of Massachusetts, S. Manchuria Railway, Near East Relief, New York Drama League, Our Dumb Animals, W. F. Quarrie & Co., United States Government, Western Reserve University, Worcester Art Museum, Worcester Polytechnic Institute.

A set of pictures of Belgium was loaned to the Library in December by the Woman's Education Association.

Thanks are due to Benjamin C. Crooker who has carried, without charge, all the books between the main library and the branch.

May I also express to the Trustees my appreciation of their kindness and co-operation.

Respectfully submitted,

HELEN A. FAY,

Librarian.

REPORT OF THE SUPERINTENDENT OF SCHOOLS.

TO THE SCHOOL COMMITTEE OF UPTON:—

I am pleased to present my fourth annual report, and with it reports of the Principal of the High School, Supervisors and School Nurse.

SALARIES.

Below are given some financial statistics of twelve Massachusetts towns, including Upton, which maintain high schools and whose populations range from 1634 to 4136, and whose valuation per pupil range from \$4668 (Upton \$5083) to \$5867. This group of towns has been chosen for comparison because of the above similarities.

(See table on opposite page.)

Regarding salaries in these towns the following is a summary:—
Nine towns pay a higher average high school salary than Upton.
Ten towns pay a higher average elementary school salary than Upton.

Upton's average high school salary is \$75 less than the average of above towns.

Upton's average high school salary is \$150 less than the average of Massachusetts towns under 5000 in population.

Upton's average elementary salary is \$200 less than the average of above towns.

Upton's average elementary salary is \$225 less than the average of towns in the state under 5000 in population and maintaining high schools.

While there are many local teachers in the Upton schools who doubtless can afford to teach in town for less than they could

get elsewhere it seems to me distinctly unfair to keep efficient and experienced teachers at a salary level averaging less than the first year salaries of the graduates of normal schools—teachers whom we could not replace from outside the town without a very substantial increase in compensation. There are four teachers now in the Upton schools whose salaries could be increased \$50 each without cost to the town as the amount received from the state on account of teachers' salaries would be increased by that amount. I recommend that a sufficient appropriation be asked for so that substantial increases may be given at once.

STATE REIMBURSEMENTS.

Of the twelve towns tabulated above, Upton—next to the smallest in population—is third from the top in the amount received from the state for school purposes. This year we have received the following amounts from the state:

General School Fund, Part I	\$1,907 60
General School Fund, Part II	2,658 66
High School Grant	901 00
On Account Superintendent of Schools	483 33
From State Wards	967 38
Total	<hr/> \$6,917 97

There was appropriated \$21,500 but although the law requires that refunds from the State above mentioned must go into the treasury and may not be used by the school department the net amount raised by the Town for School purposes was \$14,582.03.

BUILDINGS.

On December 1, last, we occupied the George S. Ball School, a gift to the Town by George W. Knowlton, Sr., the same generous donor who gave the Knowlton School several years ago. It is a generous gift and of far greater value because with it has gone the heart of the donor. He has not only given of his means

but he has taken a supreme interest in trying to have the gift he makes a worthy one.

The schools of the town are now housed in modern buildings, well lighted and ventilated and with proper sanitariums. The high school needs painting inside and out. It needs a new pump and a pressure tank for its water supply. The furniture should be put in order and varnished. Some new furniture is also needed.

ATTENDANCE.

For the year 1923-1924 the per centage of attendance was somewhat less than in the previous year, while the percentage of tardiness was also reduced—a fact which shows that the pupils are becoming more punctual.

STANDARD TESTS.

In the appendix there is a tabulation of the results of standard tests given last year and a comparison with results of tests given previously.

MANUAL TRAINING.

Mr. Stanley reports:—

"As the seventh grade is larger this year, we have to take them in two divisions. This class has the morning session and the eighth grade the afternoon. The time each boy receives is about one hour and a half hour once in two weeks or about thirty hours during the entire school year. More time should be given to this department in order that the boys receive even the minimum training they should in this work.

"I would suggest that the time be doubled at least; this would only give each boy an hour and a half each week. If for any reason our entering classes become smaller, the work could be extended into the high school. Many boys there are very desirous of taking this course.

"We have as fine an equipment in Upton as towns of a much larger size and I do hope that earnest efforts will be put forth to extend this work, as it would mean a very small additional expense yearly to the town and a benefit not reckoned alone in dollars and cents to the boys."

MUSIC.

Miss Bergin reports:—

"I am pleased to avail myself of this opportunity to express my appreciation of the work that is being done throughout the grades, due in a large sense to the great assistance the teachers have given.

"In the High School, every pupil is taking part in the chorus work, a requirement strongly supported by the co-operation of principal and teachers associated with me during the music period, and will in due time manifest its good effects.

"One of the principal aims in the music work, is, to familiarize the pupil with all musical forms, and here we feel that the 'Community Song Book' which was placed in the High School this fall, will, in a large measure furnish sufficient material to meet this attainment.

"I have been unable to come in contact with the children of the first grade at West Upton, since they began afternoon sessions, but it is only the personal touch that is lacking since my instructions and suggestions are so faithfully carried out by Miss Walker."

DRAWING.

Miss Ball reports:—

"This year thus far I have been working for good printing and the making of posters. The work in preparation for this has been a great deal of freehand cutting of letters in all grades as well as the cutting of animals and birds.

"The rest of the year the work will consist of more drawing with pencil and color."

HEALTH.

Miss Sandstrom reports:—

Visits to school	118
Number of pupils referred to doctor	20
Number of pupils referred to dentist	48
Number of pupils sent to hospital	2
Number of pupils excluded because of:—	
Impetigo	29

Number of treatments in school	54
Class talks	10
Pupils examined by school physician result as follows:	
Decayed teeth	73

All pupils had eyes and hearing examined in the spring and fall.

All pupils have been weighed and measured.

All pupils have had doctor's inspection this fall.

Six pupils have had operation for tonsils and adenoids.

Nine pupils have had glasses fitted.

CONCLUSION.

I wish to thank the Committee and the town's people generally for their continued support.

Respectfully submitted,

ALBERT S. COLE.

REPORT OF THE HIGH SCHOOL PRINCIPAL.

Mr. Albert S. Cole, Superintendent of Schools

Dear Sir:

I herewith submit my first report as principal of the Upton High School.

The school opened in September with an enrollment of seventy in the high school, thirty-two in the eighth grade, and thirty-eight in the seventh grade.

The attendance has been fairly good, and the number of cases of tardiness has shown a decided drop from the excessive number of such cases in September. The following pupils have been neither absent nor late during the year to date:

High School	Eighth Grade	Seventh Grade
Lillian Crooker	Dorothy Aldrich	Christine Hopkins
Helen Crooker	Henrietta Decrow	Grace Sadler
Robert Dearth	Alma Paille	Josephine Simon
Margaret Fitzpatrick	William Prentiss	Norman Green
Joseph Gorman		Thomas Maroney
Ruth Henry		
Francis Kearnan		
William Mack		
Ethel Nelson		
William Nelson		
Geraldine Ogden		
Beatrice Paille		
Ona Rawson		
Eileen Shaughnessy		
Mabel Swan		
Pearle Usher		
Ruth Hough		

There have been several changes in the teaching staff. Mr. Wentworth has resigned as principal to take a position as teacher in the Worcester Commercial High School. Miss Hickey is now teaching in Framingham. The present teacher of the languages and history is Miss Bernardine Butler, a graduate of Trinity College, Washington, D. C.

Miss Clapp, the commercial instructor, is now married and living in Philadelphia. The present commercial teacher is Miss Gladys Parker, a graduate of the normal course of Becker's Business College, Worcester. Mrs. Dearth has remained as teacher of English and Biology, and Miss Sliney is still in charge of the seventh grade. These teachers are all of exceptional ability, and the town is fortunate in obtaining their services.

The spirit of the pupils has been excellent, and their achievements in the various subjects are worthy of commendation.

In order that the school may fulfill one of its primary functions, that of assisting in the physical education and development of the pupils, we have endeavored to have all the pupils take part in some sort of outdoor exercise. This has been mainly in the form of out-of-door basketball for girls as well as boys, although quite a few have engaged in other forms of exercise, such as football, running and jumping, throwing the basketball and baseball and so forth. During Education Week an inter-class track meet was held, in which almost 100 per cent. of the school participated. This winter a boy's basketball team has been formed and is playing teams representing neighboring high schools.

But one social gathering has been held thus far this year, a Hallowe'en party. This scarcity of social functions could be remedied to a great degree by the installation of lights in the larger rooms of the school building. The place for the school socials is in the school building. The absence of lights makes any kind of late afternoon or evening gatherings impossible. The school could do a great amount of good for the pupils by inculcating in them the proper ideas of social conduct.

Mention should be made of the school paper. "The Uptonian," which is being edited by members of the Junior Class,

under the supervision of Miss Parker. A school paper serves the triple function of interesting pupils in written composition by giving them a definite goal for their efforts in writing, of giving the editors and managers valuable business experience, and of tending to unite the school group by the publication of common interests.

I would like to suggest three improvements which I believe would raise the degree of efficiency of the school. The first is the installing of a sufficient number of electric lights in the larger rooms of the school. My chief reason has already been given. I mention in addition, the fact that often the light on the side of the main room opposite the windows is so poor that the pupils can read only with difficulty. The second recommendation is the installing of more typewriters in the commercial room. Under existing conditions each pupil is able to be under the direct supervision of the teacher but once a week due to the fact that a large number of relays are necessary. The commercial course is flourishing to a gratifying extent. Its work can be even more improved by the suggested increase in the number of typewriters. My last recommendation is that the school building be given a general cleaning and painting in the places needed. The walls in the corridors are defaced to a great extent by pencil marks. In several places new plastering is needed. The doors need to be repainted.

In closing may I express my thanks to the teachers for their whole-hearted co-operation and work, to the school committee for their backing, to the townsfolk for their encouragement and support, and to you for your kindness and your many suggestions as to the management of the school which have raised its efficiency considerably.

Respectfully submitted,

STEWART B. ATKINSON.
