After some discussion over the town not establishing salary or wage of road commissioner at 1934 annual town meeting, on motion by Henry R. Hoyle the rate of 90 cents per hour was fixed as pay for road commissioner to include his services and use of automobile.

Before the appropriation of \$2,700.00 for street lights was favorably acted upon, Malcolm C. Article 9. On motion of Herbert A. Bagley it was voted to pass over this article that called for raising and appropriating \$2000 for further improvement of the Mendon road under Chapter 90, provided the State and County would together allot \$8,000.00 or more.

PROCEEDINGS OF THE SPECIAL TOWN MEETING,
SEPTEMBER 4, 1935.

COMMONWEALTH OF MASSACHUSETTS.

Worcester, SS.

Pursuant to the foregoing warrant about 125 legal voters of the Town of Upton met in Town Hall on Wednesday, the fourth day of September, 1935.

The meeting was called to order by the Moderator Malcolm C. Temple. The warrant and officer's return thereon was read by the Town Clerk.

Article 1. Voted on motion by Selectman E. T. Hall to amend the vote of the town regarding an appropriation for Chapter 90 Maintenance passed under Article 8 of the warrant for the adjourned Annual Town Meeting held February 9, 1935, to read that the Selectmen be authorized to use sum of Three Hundred Dollars (\$300.00) appropriated, with any sums that may be allotted by the state and county for a similar purpose.

On motion of Henry R. Hoyle, Article 3 was taken up for consideration prior to Article 2. On motion by Mr. Hoyle the sum of One Thousand Dollars (\$1,000.00) was appropriated from unappropriated funds in the treasury for ERA or WPA projects, to be apportioned by the Selectmen with the understanding that Two Hundred Dollars (\$200.00) be used at Lakeview Cemetery.

Article 2 was then passed over on motion by Mr. Hoyle.

Article 4. Voted: on motion by Selectman E. T. Hall to authorize the Selectmen to sell two motor trucks of the highway department to the highest bidder.

Article 5. H. Daniel Fay, forest warden, motioned that Two Hundred Dollars (\$200.00) be appropriated from unappropriated funds in the treasury for the forest warden account. Henry R. Hoyle informed the voters that the Finance committee recommended that the sum asked be transferred from the Emergency fund. Mr. Fay's motion was lost.

Article 6. Selectman E. T. Hall explained to the voters that as an application for a Federal grant of money under the Emergency Relief Administration Act had had to be filed before five o'clock P. M. on September 4, 1935 (three hours prior to the calling of the special town meeting to order) that the Selectmen had made a form application for such a grant to protect the town's interest if a new fire station was fav-

ored under such a plan. If the grant was allowed, Mr. Hall stated that another town meeting would then be necessary to see if the voters desired to accept such a grant and appropriate money. He then asked for postponement of action on the article until a future date and it was so voted.

Article 7. On motion by Selectman E. T. Hall it was voted to pass over the article calling for an appropriation of Five Hundred Dollars (\$500.00) to purchase the so-called Crooker lot as a site for a fire station.

LIBRARIAN'S REPORT.

TO THE TRUSTEES OF THE UPTON LIBRARY:—

The librarian herewith submits the annual library report together with library statistics and the catalog of new books.

Books have been purchased and added to the Dr. Carpenter Alcove as required.

Two small book-cases have been built to order and placed on either side of the fireplace in the reading-room. They are used to shelve special collections of children's books.

Thirty pictures of the Glacier National Park, loaned to the library by The Library Committee, were on exhibition during July. Miss Alice G. Chandler of Lancaster, who for years has had charge of these travelling collections of pictures, at one time with the Woman's Education Association and later as The Library Committee, died September 2, 1935. The work has stopped and the pictures have been distributed to the libraries where they have been circulating. To the Upton Library has been given the set of Pictures by British Artists. These were shown here in 1933 and consist of forty-eight pictures by such famous artists as Reynolds, Gainsborough, Turner, Landseer and others. They cover three centuries of time and include portraits, landscapes and sea views.

In commemoration of four hundred years of the printed English Bible, a series of ten full-size facsimile pages of the great historic English Bibles from the Coverdale Bible in 1535 to the King James Bible in 1611 were set up as an exhibit during October.

Book Week with the slogan "Reading for Fun" was observed with a display of new books just purchased for children. In contrast with these, an exhibit of favorite books of olden times was arranged to pupils of the eighth grade. On

Saturday, November 23, a story-hour was held, the first six grades being especially invited.

Mrs. Harrison Johnson has given to the library a set of Ruskin in 13 volumes; Mrs. Karl Whitten, 23 boys' books which have been circulated without having been added to the catalog; the Compilers of the Upton History, a copy of the History and a set of books in 4 volumes, "Genealogical and personal memoirs of Worcester County."

Other gifts of books or pamphlets have been received from: American Can Co., Bancroft Memorial Library, Becker College, Boston University, Bradford Junior College, Miss Elizabeth Campbell, Chemical Foundation, Inc., John Deere, Gulf Refining Co., Harry Hilliard, Commonwealth of Massachusetts, Metropolitan Life Insurance Co., Sir James Milne, National Home Study Council, New York Stock Exchange, Northeastern University, Prospect Union Educational Exchange, Mrs. Beatrice Putnam Sprague, Swift & Co., Travelers Insurance Co., Trustees of will of Mary Baker Eddy, Union Pacific, United States Steel Corp., Worcester Polytechnic Institute and American Liberty League.

Respectfully submitted,

HELEN A. FAY,

Librarian.

REPORT OF THE SUPERINTENDENT OF SCHOOLS.

TO THE SCHOOL COMMITTEE OF THE TOWN OF UPTON:—

The following is my fifteenth annual report:

ENROLLMENT.

The enrollment on November 30, 1935 is as follows:

GRADES.													Totals
Schools	1	2	3	4	5	6	7	8	9	10	11	12	
High							40	42	26	15	14	20	157
Ball	22	14	19	18	21	10							104
Knowlton	13	20	15	9	18	16							91
Totals	35	34	34	27	39	26	40	42	26	15	14	20	352

The probable enrollment for next year is:

High							25	38	35	22	14	12	146
Ball	20	22	14	19	18	21							114
Knowlton	13	13	20	15	9	18							88
Totals	33	35	34	34	27	39	25	38	35	22	14	12	348

This will leave the situation much as at present.

ENTRANCE AGE TO FIRST GRADE.

Last May the Committee passed a rule raising the entrance age to the first grade to 5 years, 10 months on September 1 of the year of entrance, except that children not less than 5 years, 5 months on that date may be admitted by the superintendent on test. Twelve children between the ages of 5 years, 5 months and 5 years, 10 months old were tested and five were admitted. So far as I know, all the parents of the children not admitted, accepted without question, the judgment that the children were not ready to do first grade work. In view of the fact that the validity of the tests and the fairness of its application may be questioned it might be well for the Committee, to consider certain modifications of the rule or its administration. These might be:

1. Set an absolute age limit from which no exceptions would be allowed.
2. Continue the rule as it is but stipulate that the results of the test shall be reported directly to the Committee before they are announced to the parents concerned.

HIGH SCHOOL PROGRAM OF STUDIES.

Mr. Cowing in his report tells about certain changes in the curriculum,—put into effect this year. It may be of interest to compare this program with that of 1921 and note the additions that have been made. They include all the commercial subjects, household arts, sociology, economics, public speaking and commercial geography. These have been added in order to better serve all the pupils and enable the pupils to get a broader knowledge of social subjects that they may the more intelligently perform their duties as citizens and voters. There need be no apprehension that the school is not functioning as a preparatory school for higher institutions since it has for many years had all the privileges of certification to colleges accorded to any New England high

school and since the graduates of the school who have ability and ambition are acquitting themselves well in these higher institutions.

The high schools of the nation are now as never before schools for all young people of high school age. We are attempting to meet the needs of these young people not only by providing so far as possible that each may find some profitable course for him to pursue, but we are trying to use those methods of teaching and study which will make it possible for each pupil to get the most out of each course of which he is individually capable. In pursuance of this aim the teachers are using unit methods of assignment in social subjects and devoting much more of their time to intelligent supervision of the pupils' study. The spirit of the school is excellent and I wish to commend the teachers for the progress thus far made in working out new methods and procedure in instruction and the pupils for their evident seriousness of purpose, their loyalty and cooperation.

ABSENCE FROM SCHOOL BECAUSE OF SICKNESS.

In November, 1933, the following rules of the School Committee were put in force:

"No pupil who has been absent from school for two or more days on account of illness shall be allowed to return to school until said pupil shall have received a certificate from a physician (preferably the school physician), certifying that the child is free from any communicable disease.

No pupil who has been absent from school for two days or more on account of illness shall be permitted to enter a school bus unless said child has a certificate from a physician or permission of the school nurse, and the driver of a bus shall refuse admittance to any pupil who so attempts to enter without a certificate or

permission and report the matter to the teacher in charge.

It shall be the duty of the teachers in the elementary schools and the principal of the high school to notify the school nurse of any cases of absence of two days or more which they suspect to be on account of sickness and it shall be the duty of the school nurse to investigate the cases of pupils who come by school bus and notify the bus drivers of any pupils who may not be allowed to enter the bus without a physician's certificate or without her permission.

Any child returning to school without a certificate after having been absent on account of sickness shall immediately be sent home by the teacher in charge and the matter reported to the School Nurse who will report to the Superintendent of Schools.

Previous to the passage of these rules there had been several wide-spread epidemics affecting the young children, especially. Below is a tabulation showing the percentages of attendance in various grade groups. It will be noticed that in 1934-1935—the first full school year after the rule was put in effect—the attendance of the youngest children was on a par with that of the children in the higher grades. Before that the percentages of attendance of the younger children was considerably less than that of the older children. Whether the improvement is simply a coincidence it is, of course, impossible to say, but I wish to take this opportunity to express my appreciation of the splendid cooperation of the parents, Miss Sandstrom, the teachers, and the bus drivers in helping to make the rules effective.

MANUAL TRAINING.

MR. STANLEY REPORTS:

"Both the seventh and eighth grades are larger in number than ever before,—two divisions are necessary in the seventh grade. These pupils are doing very creditable work,—the combination of interest, ability and cooperation makes rapid progress possible. Nearly every seventh grade boy has finished the first article and after one more has been completed and he has become more apt at handling tools, each one will be qualified to choose his next project.

The twenty-one boys in the eighth grade are showing good interest and with the limited time at their command, get excellent results. Among the projects being made this year by members of this class are end tables, skate sharpeners, bed-side tables, moulding board and book supports. It is a regrettable fact that these boys who exhibit such ability and interest in work of this kind have no opportunity to pursue it further during their high school course. However,

time has proved that seventh and eighth grade Manual Training is of practical benefit in later years.

I extend a cordial invitation to all who would like to do so to visit us at work on any Thursday and alternate Wednesday afternoons at the Knowlton School.

Also, at this time I wish to thank the people of Upton and particularly members of the School Committee for continual and indispensable support of Manual Training."

DRAWING.

MRS. STUART REPORTS:

"This year we are placing special emphasis on color harmony, a sound knowledge of which should lead to a wider use of beautiful colors in our homes, and in our dress. Fear of using the wrong color combinations, has been the cause of the uninteresting beige and taupe era in home furnishings, from which we are now timidly emerging.

"Surely there has been something wrong with our system of teaching art in the schools, for although it has taught us to see beauty, and to admire bright colors, it has not trained the average person how to use them to create beauty in their everyday surroundings. For instance, every year thousands of people travel miles to see the gorgeous splendor of the Mohawk trail in September, only to return and dress their homes, where so many hours are spent, in the cheerless garb of a gray November day. A colorless room is like the tuneless song of the monotone; but, a room with a pleasing color scheme is as harmonious to the eye as a symphony orchestra is to the ear.

"There are those who are born with a color sense, they cannot err in its use; incidentally, they cannot live happily without it. For those who have no color sense, there are charts and rules to follow, and there is the art department of the schools today, trying to give the girls and boys, our homemakers of tomorrow, a clearer understanding of color

harmony, so the world may be made more cheerful by using it freely and fearlessly.

"I wish to thank all who have given me their sincere co-operation in this work."

MUSIC.

We are fortunate in having the services of Amy Young Burns whose skill, resourcefulness and untiring energy I commend. Her report follows:

"These last few months in your schools have been very interesting musically. The children in all grades, and the High School too, are expressing a deeper interest and enthusiasm as well as intelligence in their music work. Development has been quite remarkable in many cases.

"In the primary grades special work with monotones, that is, children having difficulty in matching tones or singing a melody is being done in addition to the singing of rote songs, tone, and rhythm drills.

"Much progress is being made in the study of sight reading, ear training, and part singing in the intermediate grades.

"In the High School there is a steady improvement in sight singing, quality of tone production, and interpretation from great music masters.

"For all holidays in the few months I have been with you as your supervisor, we have taught special songs, and at Christmas time the programs consisted mostly of Christmas carols sung in unison and in parts.

"Your music supervisor wishes to express her deep appreciation for faithfulness shown by her co-workers, for the many courtesies extended her by pupils and teachers alike. and the support and help given by the superintendent, principals, and school committee."

HEALTH.

MISS SANDSTROM REPORTS:

"The clinic for discovery of childhood type of tuberculosis was held in February in grades seven, nine and eleven. It is necessary for each pupil to have their parents permission to take this test.

February 4. The skin test was given to 52 pupils.

February 7. The test was read and pupils having a positive test were given a physical examination and chest x-ray.

Pupils with a positive skin test	14
Pupils given examination and x-ray	14
Pupil given examination and x-ray by request	1
	<hr/>
	15

Final report:

Negative for tuberculosis	14
Positive for childhood tuberculosis	1

Chadwick Clinic cases also received their annual examination and x-ray and found much improvement.

The annual physical examination by Dr. Capen has been completed.

Number of pupils recommended for treatment of tonsils and adenoids	23
Number of pupils recommended for dental care	47
Number of pupils recommended for correction of posture	1

All pupils have been weighed and measured.

Notices were sent home to parents for pupils in grades 1 to 6.

Eyes and hearing have been tested:

Pupils recommended for treatment of eyes	10
Pupils recommended for treatment of hard of hearing	5

In January, February and March, the Woman's Club donated milk every morning to children underweight and recommended by the teacher or school nurse. Many of our children gained in weight and also in their studies.

Dr. Morgan has offered us his services and advice for our school children that I recommend to him and has also made some extractions for pupils."

Respectfully submitted,

ALBERT S. COLE,

Superintendent.

Upton, Mass., December 27, 1935.

REPORT OF THE PRINCIPAL OF THE HIGH SCHOOL.

TO THE SUPERINTENDENT OF SCHOOLS:

AND THE UPTON SCHOOL COMMITTEE:

The following is my third annual report:

The curriculum of the Senior High School for the year of 1935—1936 is as follows:

LANGUAGES:

1. English I, II, III, IV.
2. French I.
3. Latin II.
4. Public Speaking.

SOCIAL SCIENCES:

1. Community Civics, one-half year.
2. Ancient History.
3. United States History and Civics.
4. Medieval and Modern History.
5. Sociology.
6. Economics.

SCIENCE:

1. General Science, one-half year.
2. Biology.
3. Physics.

COMMERCIAL:

1. Commercial Geography.
2. General Mathematics.
3. Elementary Typewriting.
4. Intermediate Typewriting.
5. Advanced Typewriting.
6. Intermediate Stenography.
7. Advanced Stenography.
8. Bookkeeping.
9. Penmanship.

Acting upon the recommendation presented to the School Committee and Superintendent, French III and Latin III have been dropped from the High School Curriculum. These two courses have been replaced by Sociology and Economics both acceptable for college entrance credit. This change is one which was recommended by the Department of Education as a result of a study of the Small High School Curriculum.

Public Speaking has been added to the Curriculum. This course is given one period a week in English I, II, III, IV.

This year the school paper "The Uptonian" is again being published. Miss Martindale and Mr. Duprey are serving as faculty advisers for editing and publishing the paper. Two editions, "Thanksgiving," and "Christmas" numbers have been published so far. It is our aim to publish the paper monthly.

The benefits of the early graduation were far greater than anticipated. The ease of preparing for graduation and the terminating the business of the school year are in themselves worth the change. In past years graduation, final examinations, college examinations and other business of terminating the school year came at once. By the plan used last June, graduation was out of the way before the final examinations. I recommend that the same procedure be again followed this year.

The basket ball schedule is nearly completed. Both boys and girls teams have been practicing hard and we anticipate a successful season. Upton High School has again been invited to enter the Small High School Basket Ball Tournament to be held in Framingham March 4, 6, and 7.

Respectfully submitted,

W. THORNTON COWING,

Principal.
