

Hike 1: Goss Pond

Drive along Green Lane until you see a kiosk in a wooded patch, between houses. Park on the road, making sure that don't park on any grass or block mailboxes/driveways.

After parking, go up the little hill at the kiosk and follow the trail. There will be a house on your right. The trail goes down a hill and turns left, away from the house.

Walk until you see a trail on the right; go right here. (Note that if you miss this turn, you'll end up in an old gravel pit.) You'll soon cross a wooden bridge over a small stream/muddy area.

When you reach a "T" with the West River directly in front of you, you've reached the end of the hike.

To return to your car, retrace your steps (go over the wooden bridge, go left at the "T", and then go left, uphill, when you see the house).
